Review of Systems

Musculoskeletal: Positive for arthralgias, gait problem and myalgias.

All other systems reviewed and are negative.

Filed Vitals:

10/15/25 1019 10/15/25 1020

BP: 138/65

Pulse: 80

Resp: 18

Temp: 97 °F (36.1 °C)

TempSrc: Temporal

SpO2: 95%

Weight: 129.3 kg (285 lb)

Physical Exam

Vitals and nursing note reviewed. Exam conducted with a chaperone present.

Constitutional:

Appearance: Normal appearance.

HENT:

Head: Normocephalic and atraumatic.

Mouth/Throat:
Mouth: Mucous membranes are moist.
Pharynx: Uvula midline.
Eyes:
Extraocular Movements: Extraocular movements intact.
Pupils: Pupils are equal, round, and reactive to light.
Cardiovascular:
Rate and Rhythm: Normal rate.
Pulmonary:
Effort: Pulmonary effort is normal. No respiratory distress.
Abdominal:
Palpations: Abdomen is soft.
Musculoskeletal:
General: Tenderness present. No deformity. Normal range of motion.
Cervical back: Normal range of motion and neck supple.
Left knee: Tenderness present.
Legs:

Comments: Mildly tender left knee. Pain elicited with flexion and extension of knee. Valgus varus within normal limits

Skin:
General: Skin is warm and dry.
Findings: No bruising or erythema.
Neurological:
General: No focal deficit present.
Mental Status: She is alert and oriented to person, place, and time. Mental status is at baseline.
Psychiatric:
Mood and Affect: Mood normal.
Behavior: Behavior normal.

Impression
IMPRESSION:

No fracture or dislocation.

Moderate osteoarthritis, progressed in the interval since prior examination.

Electronically Verified and Signed by Attending Radiologist: Talal Akhter MD 10/15/2025 11:08 AM
This exam was dictated at Endeavor Health Swedish Hospital.

Medications
HYDROcodone-acetaminophen 10-325 MG Tab 1 Tab per tablet (Norco 10) (1 Tab Oral Dose Given 10/15/25 1026)
Ketorolac injection (30 mg Intramuscular Given 10/15/25 1026)

Procedures
Medical Decision Making
Patient is a 50-year-old female with schizoaffective who has chronic left knee pain is been worse over the last 2 to 3 days. She is having difficulty walking having to use other objects to steady yourself while she walks. She denies any new trauma. On exam she is mildly tender left knee with increased pain with flexion extension valgus varus and drawer test are normal. We will get x-ray.
XRAY KNEE 3 VIEWS, LT
Result Date: 10/15/2025
XRAY KNEE 3 VIEWS, LT INDICATION: Age: 50 years Gender: Female History: KNEE PAIN TECHNIQUE: Left knee (3 view/s) radiograph/s COMPARISON: 1/19/2023 FINDINGS: No fracture is identified. Osseous alignment is maintained. There is joint space narrowing and arteriosclerosis of the medial compartment. There is osteophytosis. There is no suprapatellar effusion.

IMPRESSION: No fracture or dislocation. Moderate osteoarthritis, progressed in the interval since prior examination.

Electronically Verified and Signed by Attending Radiologist: Talal Akhter MD 10/15/2025 11:08 AM This exam was dictated at Endeavor Health Swedish Hospital.

X-ray is unremarkable. Patient was given pain meds she still has some pain we will give knee immobilizer and walker and if patient follow-up at orthopedics

No data recorded

Final diagnoses:

[M25.562] Acute pain of left knee

Disposition: Disposition: Home

Discharged Condition: good

New Prescriptions

IBUPROFEN (MOTRIN) 600 MG PO TAB Take 1 Tab by mouth three times per day as needed.

MEDICAL SCREENING EXAM NOTE

This is a medical screening examination not a complete history and physical. The intention of this exam is to determine if an emergency medical condition exists. Patient educated that this is not a complete evaluation and the necessity of staying for full evaluation.

Medical screening exam performed in triage at 10:21 AM

Patient presents with:

KNEE PAIN

BRIEF HISTORY:

Pt is a 50YO female who presents with left knee pain that is worsening over the past several days. Patient reports chronic knee pain since 2011. However the pain has been worsening, she took Tylenol without any relief yesterday. She did not take any pain medicine today. She has yet to see an orthopedist for this. She denies any fevers or chills. No new injury. She is not diabetic. Has not had any injections.

PROBLEM LIST

There are no active problems to display for this patient.

ALLERGIES

Review of patient's allergies indicates:

No Known Allergies

BP 138/65 | Pulse 80 | Temp 97 °F (36.1 °C) (Temporal) | Resp 18 | Wt 129.3 kg (285 lb) | SpO2 95%

FOCUSED EXAM:

GENERAL: Awake, alert

HEENT: NCAT, vision grossly intact, NL hearing

CV: Well perfused

LUNGS: Normal respiratory effort, no increased WOB

ABDOMEN: Non-distended

MUSCULOSKELETAL: MAEW, no obvious deformities

NEURO: NL speech, No facial asymmetry, No obvious focal deficits

PSYCH: NL affect

INITIAL WORKUP:

Will begin workup for above chief complaint with initial diagnostics/interventions as below:

Extremity Xray and pain meds

Administered Medications

Inactive Administered Medications - up to 3 most recent administrations					
Medication Order	MAR Action	Action Date	Dose	Rate	Site
HYDROcodone-acetaminophen 10-325 MG Tab 1 Tab per tablet (Norco 10) 1 Tab, Oral, NOW, 1 dose, On Wed 10/15/25 at 1030, Each tab contains 325mg acetaminophen; not to exceed total 4000mg acetaminophen/ 24 hours. Max=12tabs/day. For range orders, if this is the first time the patient is receiving this medication for this pain rating, start with the lowest dose in the range. After one hour, if the patient reports ongoing pain that is unacceptable to the patient and the pain rating has not improved, give another dose of the medication such that the total dose does not exceed what is prescribed within that range. Reassess the patient one hour after this dose and if the pain rating is improved, the order is complete. If the pain rating is unacceptable to the patient and the pain rating has not improved, call the provider. If the patient has received this medication for this pain rating previously, start with the previous effective dose that is within the range prescribed. If the patient does not report improvement in his/her pain rating, despite receiving the medication prescribed, call the provider.	Dose Given	10/15/2025 10:26 AM CDT	1 Tab
